UNAIZ AHMED BAJWA

Full Stack PHP & Laravel Specialist | 7+ Years of Experience

Karachi, Pakistan | unaiz.bajwa7599@gmail.com | +92 315 2314976 | linkedin.com/in/unaiz-ahmed-bajwa-236a51237

PROFESSIONAL SUMMARY

Full Stack Developer and Principal Software Engineer with 7+ years of hands-on experience specializing in PHP and Laravel development, complemented by modern front-end expertise in React.js and Vue.js. Most recently led architecture and delivery of enterprise-grade systems at InterPay, including a Point-of-Sale (POS) platform and a full-scale Travel & Airlines Reservation System. Proven track record of designing scalable backend architectures, building secure high-performance RESTful APIs, crafting responsive user interfaces, and leading full-cycle delivery of business-critical platforms such as CRM, HRM, and Construction Site Management systems. Skilled at mentoring engineering teams, enforcing SOLID principles, TDD, and CI/CD best practices, and partnering with stakeholders to translate business goals into maintainable, high-performing software.

CORE TECHNICAL SKILLS

PHP / Core PHP • Laravel Framework • Object-Oriented Programming (OOP) • MVC Architecture • ORM (Eloquent) • RESTful API Design & Development • Third-Party API Integration • MySQL • PostgreSQL • Database Design & Optimization

JavaScript / jQuery / AJAX • Node.js • React.js • Vue.js • HTML5 / CSS3 • AWS / Cloud Platforms • CI/CD Pipelines • Web Security • Performance Optimization • Task Scheduling (Laravel Scheduler) • Testing & Debugging (TDD) • Microservices Architecture • ERP Customization & Integration

LEADERSHIP & PRACTICES

Team Leadership & Mentoring • Code Reviews & Technical Guidance • SOLID Principles • Stakeholder Management • Full-Cycle SDLC Ownership

PROFESSIONAL EXPERIENCE

Principal Software Engineer **May 2025 – Oct 2026**

InterPay — Karachi, Pakistan

- Led end-to-end architecture and development of an enterprise Point-of-Sale (POS) system, designing a scalable Laravel-based backend, RESTful APIs, and database structures supporting 500+ daily transactions across multiple retail outlets.
- Spearheaded full-cycle development of a comprehensive Travel & Airlines Reservation System, integrating 6+ third-party airline/GDS APIs and owning ticketing workflows and end-to-end booking logic.
- Led and mentored a cross-functional engineering team of 6, conducting code reviews and driving adoption of SOLID principles, Test-Driven Development, and CI/CD pipelines.
- Architected scalable microservices and backend systems focused on performance, security, and maintainability for high-traffic enterprise applications.
- Partnered with business stakeholders to translate requirements into technical roadmaps, overseeing the full software development lifecycle from analysis through deployment and maintenance.
- Improved system performance and scalability by reducing average API response time by 30% through database optimization, caching strategies, and AWS cloud integration.
- Supported ERP customization and integration efforts as part of a broader enterprise systems portfolio.

Senior Team Lead **May 2021 – April 2025**

Tafsol Technologies — Karachi, Pakistan

- Led a team of 8 developers delivering 3 concurrent enterprise-grade platforms built on PHP and Laravel, including a CRM system, an HRM (Human Resource Management) system, and a Construction Site Management system.
- Architected and developed secure, scalable backend systems and RESTful APIs powering the CRM, HRM, and construction management platforms end to end.
- Directed database design, migrations, and performance optimization across multiple concurrent projects, improving average query performance by 25% and ensuring high availability.

- Collaborated closely with frontend developers to deliver seamless, end-to-end user experiences across all platforms.
- Provided technical mentorship and conducted regular code reviews, raising team-wide code quality and engineering standards.
- Integrated third-party APIs and business systems, ensuring smooth data flow between CRM, HRM, and ERP modules.
- Managed feature delivery and issue resolution, reducing post-release production issues by 20% through rigorous testing and QA processes.

Dot Net Developer — Intern **Oct 2019 – Dec 2019**

Smart Milestones — Karachi, Pakistan

- Developed software applications using .NET frameworks (C#, ASP.NET) and integrated SQL Server data storage solutions.
- Participated in code reviews, testing, debugging, and troubleshooting following industry best practices.

Customer Service Relations — Intern **Jan 2020 – Apr 2020**

Bayer Pakistan Pvt Limited — Karachi, Pakistan

- Managed CRM data and customer communications, analyzing feedback trends to support service improvement initiatives.

KEY PROJECTS

Point-of-Sale (POS) System **InterPay**

Stack: Laravel, PHP, MySQL, RESTful APIs, AWS

- Real-time retail platform handling billing, inventory, and reporting across multiple outlets, architected for high transaction throughput and reliability.

Travel & Airlines Reservation System **InterPay**

Stack: Laravel, Node.js, PostgreSQL, RESTful APIs, Third-Party Airline/GDS Integrations, AWS

- End-to-end airline ticketing and reservation platform integrating multiple third-party airline/GDS APIs to handle bookings, fare rules, and itinerary management.

CRM Platform **Tafsol Technologies**

Stack: Laravel, PHP, MySQL, Eloquent ORM, RESTful APIs

- Customer relationship management system streamlining sales pipelines, support tickets, and customer communication workflows.

HRM (Human Resource Management) System **Tafsol Technologies**

Stack: Laravel, PHP, MySQL, RESTful APIs

- HR platform covering employee records, attendance tracking, and payroll workflows for enterprise clients.

Construction Site Management System **Tafsol Technologies**

Stack: Laravel, PHP, PostgreSQL, RESTful APIs

- Platform for managing construction site operations, resource allocation, and project progress tracking.

EDUCATION

BS in Computer Science — Iqra University, Karachi **2017 – 2021**

Intermediate — Govt. Dehli College, Karachi **2015 – 2017**

CERTIFICATIONS

- Google IT Support Professional Certificate — Coursera, 2023
- The Complete Web Developer Bootcamp — Udemy, 2023
- AWS Educate (for Students & Beginners) — Amazon Web Services, 2022

AWARDS

- Leadership Excellence Award — Final Year Project, Iqra University, 2022
